

DRAKE SPECIALTIES

## DRAKE CENTRALIZERS

- Designed to centralize and space piping or pumps inside of larger diameter piping or casing.
- Simple and quickly installed by a single worker.
- Heavy duty 2-piece, 14 gauge, T-304 stainless steel construction.
- Risers are 10 gauge, T-304 stainless steel; runners are glass-filled polymer 2" wide.
- Hardware is 304 stainless steel.
- Standard width is 8", 12" width optional.
- Lined with ribbed EPDM for grip and to prevent corrosion and electrical contact between carrier pipe and casing.
- Available for all diameter piping and casing id configurations.
